AS YOUR NEIGHBORS, OUR ASK IS SIMPLE:

IF YOU HAVEN’T GOTTEN THE  
COVID-19 VACCINE YET, PLEASE  
CONSIDER IT.

The vaccine has been adopted by a majority of Americans, regardless of political affiliation. And, the data is straightforward—more people vaccinated in a community equals a healthier population and local economy. In Lewis & Clark County, a little over half of us are vaccinated. We are seeing families and businesses suffer every day. *Numbers don’t lie, we need to raise our vaccination numbers for the security of all of us.*
